11:00

Break

## Key Note Lecture: Technological Advances in the Diagnosis and Treatment of CFRD

Melissa Putman, MD, MS Assistant Professor, Boston Children's and Massachusetts General Hospital Technological Advances in the Treatment of CFRD

Dr. Putman is an adult and pediatric endocrinologist at Boston Children's Hospital (BCH) and Massachusetts General Hospital (MGH) and an Assistant Professor at Harvard Medical School. She cares for children and adults with cystic fibrosis (CF) alongside their pulmonologists and other providers in the BCH CF Center and the MGH Adult CF Program. Funded by the NIH and Cystic Fibrosis Foundation, she performs clinical research focused on the endocrine complications of CF including CF-related diabetes and bone disease.

Jointly sponsored by the UW CF Research Translation Center
